

### Discussion and Remarks

The proposed amended Claim 21 is a formerly independent Claim 15. Claim 4, a substantially duplicated Claim 15, has been cancelled to satisfy the requirement under 37 CFR 1.75.

The re-presented Claim 23 is a formerly dependent Claim 17. Claim 5, a substantially duplicated Claim 17, has been cancelled to satisfy the requirement under 37 CFR 1.75.

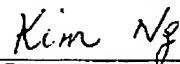

Claim 25, based primarily on Claim 19, has been amended.

The amended Claims 22, 24 and 26 are re-presented in this amendment and they are summarized below in the next section. Claim 28, which is a formerly dependent Claim 8, has been amended.

The applicant submits herewith a proposed amendment to the Claims to remove the indefiniteness of the claims cited by Examiner and to define more clearly the claims of the subject matter.

For the above reasons, the applicant believes that he has been fully responsive to the Examiner. The applicant requests entry and consideration of the amendment submitted herewith.

Respectfully submitted,
